Deadline for Submission of Bids:	17-11-2025		

This Specific Procurement Notice for Request for Bids (RFB) follows the General Procurement Notice (GPN) No. OP00126428 for this project that appeared in UN Development Business on 22nd April 2021.

Punjab Rural Municipal Services Company (PRMSC) (hereinafter referred to as "Company") is a government-owned not-for-profit company, incorporated with the Securities and Exchange Commission of Pakistan, under Section 42 of the Companies Act, 2017.

The Government of Islamic Republic of Pakistan has received financing from the World Bank towards the cost of the Punjab Rural Sustainable Water Supply and Sanitation Project (PRSWSSP) for improving service delivery standards of the rural water & sanitation system and has extended the said financing to Company.

The project has a robust impact evaluation (IE) plan. The core objective of the IE will be to credibly assess the impact of the project on child stunting, along with other metrics of child and adult health. The design of the IE uses two features of project rollout: (i) All villages in a selected Tehsil will participate in the project over its lifetime. By randomizing village rollout across years, the villages that roll out last will serve as controls for the villages that roll out first. In some locations, clusters of villages may be randomized instead of individual villages. (ii) Villages in neighboring tehsils that border project tehsils can also serve as controls for a Regression Discontinuity Design (RDD) evaluation, which would closely mimic a randomized design, since the odds of district and tehsil selection are known precisely. Given the nature of the MIS and the IE, the Project requires large-scale data collection at the household and village levels, conforming to the highest standards of data processing, transparency, and protection.

The company intends to apply part of the proceeds toward payments under Call-off Contracts that may be awarded under the Framework Agreements (FAs) for **Data Collection for Project Impact Evaluation**, initially in the certain geographical based clusters, concluded through this RFB Primary Procurement process:

The Company is undertaking the Primary Procurement with a view to concluding Framework Agreements. The Company is the sole Employer under the Framework Agreement[s]. The Company now invites sealed Bids from eligible Bidders for a Tehsil based **Data Collection for Project Impact Evaluation** from eligible Bidders to implement data collection activities in the 2000 Revenue Villages spread across 16 tehsils of Punjab whose details are given on Terms of Reference Section of the Procurement Document, covering roughly 1 million households. The primary objective is to establish the data foundation for the Project's Impact Evaluation (IE), but the data collected will also support the
